

caribou\_queue\_try\_take  
\_first

```
graph LR; A["caribou_queue_try_take  
_first"] --> B["memmove"]
```

A diagram showing a flow from a function call to a memory operation. On the left, a gray rectangular box contains the text 'caribou\_queue\_try\_take' on the top line and '\_first' on the bottom line. A dark blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text 'memmove'.
